INTERNSHIP & PROJECTS

Frontend Web Developer
Phoenix Global Trade Solution

07/2022 - 11/2022   *Hyderabad,India*
Achievements/Tasks

- I spearheaded the development of Speed Garage, a sophisticated web application tailored for the discerning clientele seeking to purchase or rent luxury cars.
- Proficiently leveraging technologies such as HTML, CSS, and JavaScript, I orchestrated the creation of a seamless user experience. My role involved collaborative efforts in database design, front-end development, and integration of payment systems, demonstrating my versatility in multifaceted project responsibilities.
- Overcoming challenges with adept problem-solving, I not only contributed to the technical success of the application but also gained valuable insights into user behavior and preferences.

Home Automation Using Boult IOT

Achievements/Tasks

- The objectives are to provide a cost-effective, user-friendly, and integrated solution for home automation. The following are some specific objectives: Control and monitor various aspects of the home remotely: With Boult IoT, users can control and monitor their home's lighting, temperature, security, and other devices remotely using a mobile app or voice commands through a virtual assistant.

PERSONAL PROJECTS

AMAZON CLONE
- Developed an Amazon clone, replicating key features and functionalities for an immersive e-commerce experience.

NETFLIX CLONE
- Created a Netflix clone, mimicking the interface and content delivery system to provide a seamless streaming service emulation.

PORTFOLIO WEBSITE
- Crafted a portfolio website, showcasing a collection of projects and skills with a user-friendly interface for easy exploration.

GAMING WEBSITE
- Established a gaming website, offering a diverse range of games and interactive features to cater to gaming enthusiasts.
